# REACT AND ACT

## About

Do you keep switching between various channels? For a change, imagine you to be the acting in all the channels and assume that someone is switching between the channels.

2. The judges will keep shifting between channels, after every few minutes or seconds. For example, a judge can switch between doordarshan, Discovery Channel ,starplus and pogo within a minute and the student(s) have to imitate popular shows of the channel.

3. Students are judged on spontaneity, content, humour, audience response and coordination (if in a group).

4. To add flavour to this process, sometimes the judge can rewind or fast forward a particular channel thereby forcing the participants to adapt to such changes instantaneously and hilariously.

**\*\*Decision of judges shall be final and abiding.**

## FAQ's:

1. Who can participate?
